SUMMARY

Data Analyst / BI Developer with 3+ years of experience in financial services at Allianz, specializing in data validation, reconciliation, and business-critical reporting. Proficient in SQL, Python, Excel, and Power BI, with strong expertise in monitoring data accuracy, identifying discrepancies, and ensuring consistency across multiple datasets. Experienced in working with large-scale financial and operational data, supporting risk analysis, reporting pipelines, and data-driven decision-making. Strong analytical mindset with a detail-oriented approach to ensuring high-quality and reliable data outputs.

PROFESSIONAL EXPERIENCE

Allianz Services
BI Developer

April 2023 – Present

- Developed and maintained business-critical dashboards using Power BI and MicroStrategy for claims and financial reporting.
- Performed data validation, reconciliation, and discrepancy analysis across multiple datasets, ensuring high accuracy and consistency.
- Built and optimized SQL queries and data models to improve reporting performance and reduce refresh time.
- Monitored daily and periodic reporting outputs, identifying anomalies and resolving data inconsistencies.
- Automated BAU reporting workflows using Python, Alteryx, and SQL, improving efficiency and reducing manual errors.
- Extracted, transformed, and analysed large datasets from SQL Server, Azure, and Excel sources.
- Collaborated with stakeholders to investigate data discrepancies and document root causes.
- Supported data quality checks, validation frameworks, and reporting governance processes.
- Created documentation for data logic, assumptions, and reporting procedures to improve transparency.
- Worked in Agile teams delivering iterative improvements to data pipelines and reporting systems.

Allianz Services

Nov 2022 – Mar 2023

Intern – Business Analytics

- Assisted in developing Excel-based dashboards for sales and profit analysis.
- Conducted data analysis and reporting support for business teams.
- Built a Voice of Customer (VoC) chatbot using NLP to classify sentiment and generate insights.
- Automated feedback analysis, improving data processing and reporting efficiency.

EDUCATION

MSc Computer Science (Data Analytics)

2021 - 2023

Completed with 71% from Rajagiri College of Social Sciences - MG University

BSc Mathematics

2018 - 2021

Completed with 80% from N S S Hindu College - MG University

TECHNICAL SKILLS

Programming & Querying: Python, SQL

Data Analysis & Reporting: Excel (Advanced), Power BI, MicroStrategy

Data Platforms: SQL Server, Snowflake, Azure, Databricks

Core Competencies: Data Validation & Reconciliation, Discrepancy Analysis & Root Cause Investigation, Reporting Accuracy & Monitoring, ETL & Data Pipelines, Data Quality Assurance, Stakeholder Communication, Risk & Financial Data Analysis (basic exposure)

CERTIFICATIONS

- Microsoft Power BI Data Analyst Professional Certificate
- MicroStrategy Departmental Analyst
- Alteryx Masterclass
- Python Pro Bootcamp
